The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

S. VENKATAVARADIENGAR,
District Forest Officer.

MYSORE DISTRICT.

Abstract Notification dated 15th December 1932.

The attention of the public is invited to this office Notification dated 15th December 1932 regarding sale of timber in Periyapatna and Hunsur Depots on the 19th January 1933 and 17th January 1933 respectively as published on pages 5 and 6, Part VI of the *Mysore Gazette* dated 5th January 1933.

Timber pertaining to the defaulters of previous sales will also be sold at their risk.

Notification dated 20th December 1932.

The undermentioned quantities of timber will be sold by the District Forest Officer, Mysore District, or any other officer authorised by the District Forest Officer at 2 P.M. on the date noted against each depot under the following conditions :—

Name of depot	Date of sale	Teak	Remarks
		C.ft.	
1. Mysore Woodyard, Mysore	30th January 1933 ...	12,000	
2. Antharsanthe Depot	25th do ...	5,000	More or less
3. Begur	23rd do ...	2,000	

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers; should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Chief Conservator and in other cases to that of the District Forest Officer, subject to the following conditions :—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officers only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo showing the total value and the purchase made by him. Thereupon each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value, where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of notice of confirmation of the sale whichever is later. In case of purchasers of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the 15th May 1933. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at 9 per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale; on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

N.B.—Timber pertaining to defaulters of previous sales will also be sold.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers; should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Chief Conservator and in other cases to that of the District Forest Officer, subject to the following conditions :—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officers only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo showing the total value and the purchase made by him. Thereupon each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty

to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value, where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of notice of confirmation of the sale whichever is later. In case of purchasers of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the 15th May 1933. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at 9 per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale; on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

The earnest money will not be adjusted towards the value of timber, until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase, will remain in the Depot at the risk of the purchaser from the date of the confirmation of the sale.

N.B.—It should be clearly understood that the contractor shall make his own arrangements for the removal of the bamboos, etc.

2. Each bidder shall, before he is permitted to bid, be required to furnish a solvency certificate under the Thangadi Sale Rules and deposit a sum of Rs. 50 (fifty) as earnest money with the officer conducting the sale. The deposit will be returnable to him at the close of the sale, if his bid is not accepted. The person whose bid is accepted shall immediately after the close of the sale pay 25 per cent of the bid amount less the deposit already paid together with the local cess at one anna (per rupee), railway cess at three pies (per rupee) and education cess at six pies (per rupee) on the full sale amount, failing which the right will be resold or worked by the department at the risk of the defaulting bidder. He will be liable for the loss, if any, that may result by such resale or departmental working, which will be recoverable from him as arrears of land revenue, but he shall not participate in any gain.

3. Defaulters to the department will not be allowed to bid at the sale.

6. Within a week from the date of intimation regarding the confirmation of the sale, the person whose bid is accepted, shall deposit as security a sum of Rs. 50 (fifty) or 25 per cent of the sale amount, whichever is less, for each block as security towards the due fulfilment of the contract. He shall also pay within that period the remaining 75 per cent of the contract amount due by him and shall execute an agreement on a stamped paper of proper value accepting the terms specified below, failing which the amount already paid will be forfeited to Government and the produce resold or worked by the department at his risk as noted in clause (2) *supra*. The security deposit or the balance thereof as may remain over shall be repayable to the contractor on his producing proof relieving him of any liability under the contract.

The following are the further conditions to which the contractor should bind himself :—

(*a*) That the bamboos shall be collected or stored outside the block at such place or places as may be fixed by the Range Officer concerned and allowed to be removed on check by him and after a permit to remove is issued. Removal without such permit will be an offence to be dealt with according to law.

(*b*) That the purchaser shall not cut bamboos outside the limits of the block to which the lease refers and not exploit immature clumps less than three years old.

(*c*) That the lessee will be personally responsible for the acts of his agents, servants or coolies employed in the cutting, collection and removal of bamboos and for preventing the cutting of clumps under two years, by himself, his agents, servants or coolies.

(*d*) That he shall not sublet the contract to anybody or appoint any agent to work for him, except with the written sanction of the District Forest Officer.

(*e*) That he shall have no right whatsoever over the block and over the bamboos paid for but left unremoved in any of the blocks after 31st December 1933.

(*f*) That he shall accept the minimum quantity fixed in the notification as available in the block concerned and shall have no claim on the department for any deficit that may be found If he removes any quantity above the minimum fixed within the lease period, he shall pay for the excess quantity at auction sale rates together with cesses thereon.

(*g*) That he shall abide by such orders as the District Forest Officer may issue regulating the transport of bamboos to and collection at their rafting station.

(*h*) That he shall abide by the rules of the department as regards the kindling of fires and shall hold himself responsible for any forest offences committed by his agents, employees or workmen.

(*i*) That he or his men shall not enter the forest after sunset and before sunrise.

(*j*) That he shall maintain a register in the form prescribed by the District Forest Officer showing the number of bamboos removed and shall keep it open for the examination of Forest Officers above the grade of guards.

(*k*) That he understands that the sale does not prohibit the issue of retail licenses at the seigniorage rates or the exercise by the villagers of their rights in the Forests.

(*l*) That for any breach of any of the conditions of the contract by the contractor or his agents, the contract shall be void at the option of the District Forest Officer and that the latter may, after issuing to the contracter a notice of cancellation of contract enforce forfeiture of all or any part of the deposit and shall resell the right or work it departmentally at the risk of the contractor as in clause (2) *supra*. If the deposit or part thereof is so forfeited, it shall be immediately made good by the contractor.

(*m*) Interest at 9 per cent will be recovered on all over due payment.

Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified.— The sale is subject to the confirmation of the Conservator of Forests if the amount exceeds Rs. 1,000.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but

shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of the notice of confirmation of the sale, whichever is later. In case of purchases of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the (15th May 1933.) The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, including the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depôt unless a permit is obtained from the Forest Officer, in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case, should it be allowed to remain longer than 90 days after 15th May 1933. Timber not removed after purchase will remain in the Depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

13. Interest will be charged on all belated payments at 9 per cent per annum from the date of their falling due up to the date of payment.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Conservator and in other cases, to that of the District Forest Officer.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. 6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within eight days after the date of the notice of confirmation of the sale. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

No extension of time will be given for the payment of any amount, but if any amount is permitted to be paid after the due date, interest will be charged therein at 9 per cent per annum.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 25 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depôt unless a permit is obtained from the Forest Office in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case, should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the Depot at the risk of the purchaser from the date of the confirmation of the sale.

11 If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. No. 4707—*C. R. B.* 32-32-1, *dated* 11*th February* 1933.

It has come to the notice of this office that candidates for appointment in the Education Department who have passed only the Theory portion of the Upper or the Lower Secondary Training Examinations often enter "U. S. T." or "L. S. T." as their qualification in their applications to the Central Recruitment Board. As this is misleading, it is hereby notified that in future those who have passed both the Theory and the Practical portions of the said examinations should note their qualification as "L. S. T. Complete" or "U. S. T. Complete" while those who have passed only in Theory, as "L. S. T. Theory" or "U. S. T. Theory," in their applications.

By Order,

Specifications for Baltimore Type of Truss of 80' Spans for the Kabini Bridge at T.-Narasipur.

The truss is 13½' between centre to centre of booms consisting of details of members as shown below. The truss is designed to allow for pedestrain traffic at 84 lbs. per S.ft., of floor area and a 15 ton Steam road roller with 50 per cent allowance for impact provides for the maximum live load expected on the bridge. Width of road way is 18' clear. Top width of masonry pier is 5'.

Impact allowance of 50 per cent is made for trusses also. Rivets to be used throughout.

All materials required for steel structure shall conform to the British standard specifications. They should be perfectly sound in texture and free from all bends, scales and defects of all kinds. Before despatch to the work spot, they are usually painted with one coat of paint and before erection, they shall be again painted with three more coats of fresh anti-corrosive Shalimar graphite paint.

All steel work during the course of fabrication and testing shall be subject to the inspection of the Executive Engineer or his representative.

No steel work shall be painted for the 2nd time before it has been examined by the Executive Engineer or Inspecting Officer.

The Executive Engineer may order the completion and fitting together on the ground of such portions of the work as he may deem expedient, and may cause the same to be subjected to a proper test before it is put into position.

In putting steel work together, greatest care is to be taken to fit the plates accurately in contact and to see that the rivets and recet holes correspond with each other before revetting up. All joints to be perfectly clean and freed from rust. Should any parts be bent or injured they are to be promptly repaired according to the instructions of the Executive Engineer.

In cases, holes do not exactly correspond they shall not be slotted out to fit but shall with the permission of the Executive Engineer, be enlarged with a circular bit and larger rivets used to fill the holes.

Rivets shall, if possible, be heated uniformly, throughout their whole substance, in an air furnace, the rivets being kept clear of the fuel. Great care is necessary in heating rivets to prevent the iron from burning and becoming brittle.

In erecting girders, the different parts are to be fitted together with service bolts, and packed up to camber before rivetting is completed, care to be taken to keep the girders laterally straight.

In fixing bed plates, special care must be taken to put the holding-down bolts exactly in positions, so that the nuts may bear square and firmly grip the plate below. The upper surface of bed plates must be exactly at the specified level. Bed plates should be set in cement all foundation bolts grouted with cement mortar (1 : 2).

It is very necessary that skilled workmen and maistries thoroughly acquainted with the structural steel work should be employed by the contractors and the whole work after completion should present a neat finish and sound workmanship.

Any settlement of revetment either due to bad workmanship or indifferent consolidation of earthwork behind should be made good by the contractors.

EMBANKMENT.

66. Before the earthwork for bank is commenced, the ground to be occupied by its base, will be thoroughly cleared of all trees, shrubs, grass prickly pears, rubbish of all sorts, loose stones and soft stuff, stumps and roots being entirely grubbed up.

67. The surface soil consisting of sand, etc., shall be removed to such depth as may be directed by the Executive Engineer.

68. The surface of sloping ground on which the bank is to be formed shall invariably be prepared to receive the earthwork by having cut in the slope a sufficient number of footings or benches forming a right angle with the slope of the embankment.

69. As already stated, all good soil obtained from excavation for foundation of abutments should be used up for embankment.

70. No mud, slush, sand or watery stuff and no decayed vegetable matter or rotten stuff of any kind shall be allowed to be put into embankment.

71. Before commencing the embankment, the foot of the slopes on each side will be marked by pegs firmly driven into the ground at regular intervals, care being taken to place them at right angles to the centre line, profiles made of bamboo or other convenient material and a string will be set up for the guidance of workmen. The profiles will show the total height including allowance for settlement. The toe of the slope shall be marked by a trench at least six inches deep.

72. The embankment is to be raised (after the site has been properly prepared and well watered) in regular layers slightly concave in section and the earth is to be thrown down from the sides towards the centre not *vice versa*. The layers will be 9" thick and will be rammed and consolidated by using water. They will be carried out to the full width of the slopes in all instances, so that no additions may be required to the slopes after the bank has been brought up to formation level including allowance for shrinkage.

73. All lumps and clods of earth are to be broken up so as to allow of a regular subsidence of earthwork throughout.

74. In carrying up embankments, the full allowance of ten per cent for shrinkage shall be made at first so that no addition of earth will be required after settlement to bring the bank up to its full dimensions.

75. The top embankment is to be brought up to the levels set out (including the allowance for shrinkage) and to be neatly trimmed. The slopes are to be dressed to the required inclination and neatly trimmed.

76. In long embankments the earthwork should be left with long steps or benches at the close of a day's work and before new earth is put in, the old surface will be well watered and scored so that the old and new earthwork may properly adhere to each other.

77. For all other works not specified above, the usual departmental specifications will be followed.

DIVERSION OF RIVER.

78. The lumpsum provision made is for diverting the water in the river during the working periods and is irrespective of the number of seasons of construction.

No. 4707—*C. R. B.* 32-32-1, *dated* 11*th February* 1933.

It has come to the notice of this office that candidates for appointment in the Education Department who have passed only the Theory portion of the Upper or the Lower Secondary Training Examinations often enter "U. S. T." or "L. S. T." as their qualification in their applications to the Central Recruitment Board. As this is misleading, it is hereby notified that in future those who have passed both the Theory and the Practical portions of the said examinations should note their qualification as "L. S. T. Complete" or "U. S. T. Complete" while those who have passed only in Theory, as "L. S. T. Theory" or "U. S. T. Theory," in their applications.

By Order,

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale, but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers of timber in small quantities, full value thereof will be accepted if tendered on the spot and the payment of deposit in such cases will not be insisted upon.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. 7. The full value of all timber purchased shall be paid for within 30th June 1933. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depôt unless a permit is obtained from the Forest Officer in charge of the depot. No. 4707—*C. R. B.* 32-32-1, *dated* 11*th February* 1933.

It has come to the notice of this office that candidates for appointment in the Education Department who have passed only the Theory portion of the Upper or the Lower Secondary Training Examinations often enter "U. S. T." or "L. S. T." as their qualification in their applications to the Central Recruitment Board. As this is misleading, it is hereby notified that in future those who have passed both the Theory and the Practical portions of the said examinations should note their qualification as "L. S. T. Complete" or "U. S. T. Complete" while those who have passed only in Theory, as "L. S. T. Theory" or "U. S. T. Theory," in their applications.

3. The number of casks and the quantity of spirits as also the number of special liquor and ganja cases conveyable to each depot during the year 1932-33 and the distance of each depot from the Railway Station at Hassan are mentioned in the annexed statement. No definite number of casks and cases is, however, guaranteed for transport to the successful tenderer who is bound by actual requirements (be the same more or less than the number carried in any previous year).

Note.—The casks in use range in capacity from 50 to 60 gallons each and the gross weight when filled with spirits of 35° U. P. varies from 7 to 9 maunds. The weight of each special liquor box is about 2½ maunds. The minimum number of casks to be conveyed each time to a depot is two and the maximum six. The number of trips to each depot will be one or more per month according to the local demand.

4. Tenderers must specify separately the lowest rate of remuneration for each cask of arrack and each case of special liquor and ganja to be carried from Hassan Railway Station to each of the Bonded Depots which should include bringing back of the empty casks from there to Hassan Railway Station. The rate thus tendered and accepted by the Excise Commissioner in Mysore shall be the rate at which remuneration shall be calculated on the actual number of casks of arrack and cases of special liquors carried in each case and be payable to the successful tenderer who shall be called "Government Contractor for the carriage of arrack to Bonded Depots" during the currency of the contract granted under this Notification.

The contract will include the carriage along with arrack casks and special liquor cases of the requisite supplies of Ganja and Proof spirits bottles occasionally in dealwood cases to the several Depots or Taluk Treasuries, as the case may be, in the places noted in para I above from the Hassan Railway Station to the Depots of other Taluks at a uniform rate of one rupee per case irrespective of the distance and weight.

Note.—The gross weight of each case varies from 20 seers to one maund or thereabouts. The number of cases conveyed to each treasury last year is noted in the annexed statement.

5. Each tender must be accompanied by a deposit of Rs. 100 and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of transporting spirits from Hassan Railway Station to the Bonded Depots" and must be sent to the Deputy Commissioner at Hassan, so as to reach him before noon on 30*th April* 1933, after which date no tenders will be received. The tenders will be opened by the Deputy Commissioner or by one of his authorised agents at his office at 3 P.M., on the same day in the presence of such of the applicants as may be present. The final disposal of the tenders will rest subject to the approval of the Excise Commissioner in Mysore, with the Deputy Commissioner, Hassan District, who reserves to himself full powers to reject any or all of the tenders without assigning any reason. The deposits made by the unsuccessful tenderers will be immediately returned to them.

6. The successful tenderer shall, within eight days of the acceptance of his tender being communicated to him, deposit at Hassan District Treasury, a further sum of Rs. 900 in cash or in approved securities duly endorsed in favour of the Comptroller to the Government of Mysore to make up with the deposits previously made, a sum of Rs. 1,000 and shall execute an agreement in the appended form binding himself to conform to the conditions therein set forth and if he fails or refuses to sign the agreement or to make the further deposits required within the time aforesaid, the deposits already made will be forfeited to Government and the contract otherwise disposed of.

By Order,

Secretary, Central Recruitment Board.

No. 4707—C. R. B. 32-32-1, dated 11th February 1933.

It has come to the notice of this office that candidates for appointment in the Education Department who have passed only the Theory portion of the Upper or the Lower Secondary Training Examinations often enter "U. S. T." or "L. S. T." as their qualification in their applications to the Central Recruitment Board. As this is misleading, it is hereby notified that in future those who have passed both the Theory and the Practical portions of the said examinations should note their qualification as "L. S. T. Complete" or "U. S. T. Complete" while those who have passed only in Theory, as "L. S. T. Theory" or "U. S. T. Theory," in their applications.

By Order,
N. MADHAVA RAO,
Chief Secretary to Government.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30th June 1933. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale and no timber shall be removed from the depôt unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers; should any lot be disputed, it shall again be put up and sold.

In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. 12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers; should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. (3) That the confirmation of sales is ordered by the District Forest Officers only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo showing the total value and the purchase made by him. Thereupon each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value, where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of notice of confirmation of the sale whichever is later. In case of purchasers of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the 15th May 1933. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at 9 per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale; on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

Conditions.

1. The tender should be superscribed as "Tender for the purchase of timber from the Bhadravati, Channagiri and Ubrani Depots". The rates should be per C.ft. of each kind written distinctly in words as well as in figures.

2. Each tender should be accompanied with the earnest deposit of Rs. 200 in currency notes which will be returned in the case of unsuccessful tenderers.

3. The final acceptance of the tender rests with the Conservator of Forests or the District Forest Officer as the case may be who reserves to himself the power of accepting or rejecting any tender without assigning any reason therefor.

Tender of defaulters to the department will not be accepted.

Tender should accompany with a solvency certificate as under the Tangadi sale rules.

Note.—It should be clearly noted that the contractor should make his own arrangements for the removal of timber from depot and that the Forest Department will not undertake any responsibility in the matter of opening roads, etc.

Within a week from the date of intimation of the acceptance of the tender, the contractor whose tender is accepted shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government, and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government, shall not be taken into account.

The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of the notice of confirmation of the sale whichever is later. In case of purchases above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the 15th June 1933. The moneys shall be paid into such treasury as the District Forest Officer may direct, within the time specified.

If the amount is not fully paid for by the purchaser before 15th June 1933 the initial deposit as well as the other moneys already paid in, shall be forfeited to Government, and all or any portion of the timber not fully paid for, shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value.

No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, including the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depot unless a permit is obtained from the forest officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

Timber purchased should be removed as early as possible and in no case should it be allowed to remain longer than 90 days after the 15th June 1933. Timber not removed after purchase, will remain in the depot at the risk of the purchaser from the date of the confirmation of sale.

Ordinarily no extension of time will be given for the payment of any amount but if any amount is permitted to be paid after the due date interest will be charged therein at 9 per cent per annum.

If the timber is not removed within the time allowed, the same may, after ten days notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, will be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

District Forest Officer.

N.B.—Timber pertaining to defaulters of previous sales will also be sold at their risk.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers; should any lot be disputed it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Chief Conservator and in other cases to that of the District Forest Officer, subject to the following conditions :—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officers only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo showing the total value and the purchase made by him. Thereupon each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value, where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of notice of confirmation of the sale whichever is later. In case of purchasers of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the (15th May 1933). The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause (5) *supra*. Interest at 9 per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated, at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the Depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale; on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. Tendering firms should furnish complete specifications of the equipment offered and specify the efficiencies of the pump and motor separately as also the overall efficiency of the pumping set at half, three-quarter and full loads.

The above efficiencies and duty specified should be guaranteed. A reduction of 5 per cent in price will be made for every 1 per cent by which the actual efficiencies fall below the guaranteed figures subject to a tolerance of 2 per cent.

Information regarding the name of the manufacturer and place of manufacture of both the pump and motor should be furnished in the quotation. A complete set of drawings showing all the details of the pump and motor should accompany the quotation together with descriptive literature of the equipment offered.

The price to be quoted should be for delivery both c. i. f. Madras and f. o. r. Dodballapur (M. S. M. Railways).

This enquiry will close on the 24th June 1933.

The pumping set should consist of an electric motor vertically and directly coupled by means of a flexible coupling to a multistage pump below by means of a steel shafting of suitable diameter, the pump being capable of lifting water from the depth of 100 ft. in the bore-well and forcing it again through a 3" C. I. pipe line into an elevated tank against a head of 80 ft., the total head amounting to 180 ft.

Pump.—The pump may consist of a number of stages and should be such that the whole set could easily get into the 6" diameter well, the outside diameter of the pump bowl not exceeding 5½". The pump should preferably have semi open type impellers and should be provided with satisfactory arrangement for adjusting the discharge from the top without operating the delivery valve. The impellers should be of the highest quality bronze which do not wear away rapidly by sand or silt if any.

Suitable thrust ball-bearing should be provided on top to balance the whole weight of the pump.

Sand proof bearings assuring correct alignment and sturdiness, with water lubrication should be provided between impellers. The shaft should be made of non-corrosive, stainless steel and should consist of uniform lengths with necessary substantial couplings which do not get loosened while working.

The shaft should be provided with suitable guide bearings at short intervals to prevent whipping or gyrating of the shaft and it should be made of such material that is not damaged by sand or silt, and should be water lubricated.

The pump should be provided with all the delivery pipe necessary inside the well up-to the top of the well with suitable lengths to facilitate erection and uncoupling, etc., and should be complete in every way to deliver the water from the well to the ground on the top of the well. Motor.—The motor should be suitable for 220 volts, 25 cycle, 3 phase, alternating current and should be of sufficient H. P. as not to get overloaded on any account while the pump is working on full load, and should be mounted on a suitable frame. It being a vertically coupled direct driven unit, the windings should be sufficiently well protected from being soaked by the lubricant of the motor bearings. The motor should be provided with ball or roller bearings and suitable flexible coupling, etc., complete.

OFFICE OF THE SUPERINTENDENT, GOVERNMENT STATIONERY DEPOT, BANGALORE.

SUBJECT—Regarding the report of shortages of stationery by receiving officers immediately on receipt of the supplies from the Stationery Depot.

Circular No. S. 3153, *dated* 15*th May* 1933.

To—

All officers obtaining supplies of stationery articles and papers from the Government Stationery Depot, Bangalore.

The undersigned desires to bring to the notice of all officers entitled to the supply of stationery articles and papers from the Stationery Depot that all stationery articles and papers despatched to the several offices are carefully counted in the Stationery Depot and thoroughly checked twice before being packed. Cash security of Rs. 100 is furnished by each of the packers and the packing is carried out under the personal supervision of the Supervisor who has also furnished a substantial security of Rs. 1,000. In addition to these efficient checks and counter-checks, all cases of shortages reported by receiving officers after observing the conditions prescribed in the Stationery Rules are promptly investigated and the shortages made good if such reports are found reasonable. It is, however, observed that in several cases reports about shortages are made after considerable delay and long after the receipt of the consignments in the receiving offices when no useful purpose can be served by any enquiries made by this office. The attention of all receiving officers is therefore invited to Rules 21 and 22 of the Rules for the supply of Stationery articles and Forms appended to Government Order No. G. 201-60—P. & S. 1-31-1, dated 8th July 1931 (reproduced below for facility of reference), which lay down that the packages of stationery should be opened immediately on arrival and the contents verified with the invoice in the presence of the receiving officer and the invoice returned to this office immediately duly receipted. If any shortages are noticed, a detailed report may be kindly furnished noting the names of the missing articles, the condition in which the consignment was received, and whether the packing was intact or showed signs of having been tampered with. Such reports can be admitted only if made within a week after the receipt of the consignments in the receiving office. All such cases will be promptly investigated and if the complaint is proved to be well-founded, the shortages will be made good by the Stationery Depot. In cases in which the shortages are reported later than a week after the receipt of supplies, no useful action can be taken by this office and the Stationery Depot cannot undertake any responsibility for the alleged shortages.

B. PUTTAIYA,
Superintendent of Stationery.

RULES FOR THE SUPPLY OF STATIONERY ARTICLES AND FORMS.

The receipt shall then be signed and *immediately* transmitted to the Superintendent of Stationery with details of any missing articles. The transmission of the receipt must not be delayed pending reference to the Stationery Depot regarding the short or excess delivery which should form the subject of separate correspondence.

OFFICE OF THE SUPERINTENDENT, GOVERNMENT STATIONERY DEPOT, BANGALORE.

SUBJECT—Regarding the report of shortages of stationery by receiving officers immediately on receipt of the supplies from the Stationery Depot.

Circular No. S. 3153, *dated* 15*th May* 1933.

To—

All officers obtaining supplies of stationery articles and papers from the Government Stationery Depot, Bangalore.

The undersigned desires to bring to the notice of all officers entitled to the supply of stationery articles and papers from the Stationery Depot that all stationery articles and papers despatched to the several offices are carefully counted in the Stationery Depot and thoroughly checked twice before being packed. Cash security of Rs. 100 is furnished by each of the packers and the packing is carried out under the personal supervision of the Supervisor who has also furnished a substantial security of Rs. 1,000. In addition to these efficient checks and counter-checks, all cases of shortages reported by receiving officers after observing the conditions prescribed in the Stationery Rules are promptly investigated and the shortages made good if such reports are found reasonable. It is, however, observed that in several cases reports about shortages are made after considerable delay and long after the receipt of the consignments in the receiving offices when no useful purpose can be served by any enquiries made by this office. The attention of all receiving officers is therefore invited to Rules 21 and 22 of the Rules for the supply of Stationery articles and Forms appended to Government Order No. G. 201-60—P. & S. 1-31-1, dated 8th July 1931 (reproduced below for facility of reference), which lay down that the packages of stationery should be opened immediately on arrival and the contents verified with the invoice in the presence of the receiving officer and the invoice returned to this office immediately duly receipted. If any shortages are noticed, a detailed report may be kindly furnished noting the names of the missing articles, the condition in which the consignment was received, and whether the packing was intact or showed signs of having been tampered with. Such reports can be admitted only if made within a week after the receipt of the consignments in the receiving office. All such cases will be promptly investigated and if the complaint is proved to be well-founded, the shortages will be made good by the Stationery Depot. In cases in which the shortages are reported later than a week after the receipt of supplies, no useful action can be taken by this office and the Stationery Depot cannot undertake any responsibility for the alleged shortages.

B. PUTTAIYA,
Superintendent of Stationery.

RULES FOR THE SUPPLY OF STATIONERY ARTICLES AND FORMS.

* * * *

Rule 21. On arrival of the supplies, the receiving officers shall have the packages placed in a dry and properly protected place. They shall then be opened at once and the contents verified with the invoice in the presence of the receiving officer or of some one appointed by him, who shall certify to the fact at the foot of the receipt. The receipt shall then be signed and *immediately* transmitted to the Superintendent of Stationery with details of any missing articles.
